### SUN WOOD STICK-IT

The DIY Wall Covering

With our Stick-it products, walls, ceilings, furniture or doors can easily be covered with our special decors. This wall covering sticks quickly and easily and creates a completely new living experience for your home in no time.

SUN WOOD use: Stick-it // SHED PLANKS 03

## SELF ADHESIVE WALL PANELS

Unique wood decors for your walls

Stick-it is the first choice for all those who want to customize their rooms quickly and easily. The 6mm thick, self-adhesive spruce plywood panels come from local, ecological forestry and are finished with extraordinary decors by SUN WOOD. Whether in the design of a rustic alpine hut, a colourful beach hut or even as a inscribable chalkboard: there are no limits to your creativity!

### Why Stick-it?

- Particularly simple and quick installation without screwing, drilling, pasting, painting or varnishing
- Cuts are possible with standard Stanley knife
- Adheres to all smooth surfaces such as tiles, wood, concrete, plastic, glass or plaster
- Produced in Austria, ecologically safe and recyclable

### Available format:

800x200 mm

Package: 3 pieces (0,48 m<sup>2</sup>)

SUN WOOD Stick-it is designed for indoor use. Do not mount it directly on a tiled stove or expose it to strongly changing climatic conditions. For a perfect adhesion we recommend a smooth and dust-free surface. When mounting overhead or on the ceiling, the panels should be screwed for safety.
